

INTERNSHIP AND SUMMER TRAINING

AT WISERMIND TECHNOLOGICAL PVT LTD

www.wisermindtechnosoft.com

“Bridge The Gap”

Wisermind takes pleasure in announcing tailor made project based training programs in specialized and niche areas viz. **DOT NET, Wireless Telecommunication** and **Embedded Systems** for students to utilize their training and internship time to their maximum advantage.

“*Bridge The Gap*” is a 6 months power featured over 200 hrs program. It is an integrated skill upgrade program to bridge the gap between the knowledge gained by the students during their college studies and actual industry requirement. This will be a project oriented program that efficiently enables the students with outstanding knowledge and real life experience.

As Industry is changing at a rapid pace so we need to upgrade and polish the skills to current market requirements as some of the contents we study in college might be out of demand in the industry as universities don’t upgrade their curriculum with the changing needs.

The program is designed carefully to provide corporate environment and challenges (both technological and professional) in order to bridge the gap between Industry and academia; thereby producing engineers who are **INDUSTRY READY** and equipped to work effectively on challenging projects.

IoT (Internet of Things)

IoT is the next big thing in the computing world with estimated billions of dollars being poured in the R&D presently. This industry is expected to grow at a rapid pace in near future providing huge job opportunities for rightly skilled people.

Wisermind is also a leading service provider of products in commercial *IoT* domain. We have an unmatched and unparallel ability to deliver end to end products encompassing R&D of new hardware and software for such activities.

Why “Bridge the Gap”

- Exponential growth in IoT sector
- Guided by experienced faculty with over 15 yrs of experience
- Learn Technology for tomorrow
- Learn to work in a distributed project environment
- Comprehensive training program on cutting edge technologies.
- Get a 6-months on-the-job training and work experience
- Exposure to in-depth, real world project development approach.
- Learn to work independently as well as an excellent team player.
- Job assistance for the deserving candidate.

Areas of Expertise

DOT NET

- Introduction To .NET
- Common Language Runtime (CLR)
- .NET Framework Class Library
- Language Fundamentals
- Arrays And Other Data Types
- OOPS Concepts
- Inheritance
- Events And Delegates
- Exception Management
- File System Operations
- Multithreading
- ADO.NET Basics
- ADO.NET Architecture
- Connections And Command Object
- Data Set & Data Reader
- Datagrid & Data Binding
- Types Of Transactions
- ASP.NET Topics
- Introduction To Web Forms
- Introduction To Html Controls
- Page Life Cycle
- Server Pages Using ASP.NET
- State Management
- Server Control Form Validation
- Web Form Controls
- Data Binding Server Controls
- Grid View Control
- Master Pages
- ASP.NET Web Security
- ASP.NET Ajax
- Cascading Style Sheet (CSS)
- .NET Remoting
- Web Services
- ASP.NET Caching
- Collection Classes
- Reflection
- Assemblies & Deployment
- Globalization & Localization
- XML
- Introduction To LinQ
- LinQ To Sql
- Windows Communication Foundation (WCF)
- Windows Presentation Foundation (WPF)
- Crystal Reports
- MVC Concepts
- SQL Server 2008

Wireless Communication

- GSM
- GPRS
- UMTS/3G
- 4G/LTE

Embedded Systems

- 8/32 bit microcontroller programming
- Device Drivers (ARM9, ARM11)
- Linux adaptation to hardware platforms

Eligibility

Candidates having/pursuing below mentioned programs from reputed colleges and with a good educational record and right attitude towards work are eligible to register.

- MCA or equivalent
- BE/B. Tech (CS/IT/E&C/Electrical/Instrumentation)
- M. Tech (CS/IT/E&C/Electrical/Instrumentation)
- M. Sc (Electronics/Physics)

Program Duration

- Course Duration : 105 hrs
- Project Duration : 110 hrs
- Batch Duration : 3 hrs (3 days in a week for 6 months)

Location of the training is NOIDA/NCR.

Wisermind will provide assistance in boarding/lodging for outstation and international candidates.

Registration for the program starts from 15th Nov 2014.

Commencement of Program – 1st December 2014.

Program Fee*

- INR 10,000/-

* Plus Service Tax as applicable

- 10% discount on fee for a group of engineers (of size 5 or more).
- Training booklet and guide CD will be provided to all interns.
- Certificates of achievements and experience will be provided by Wisermind.
- Complimentary participation in all our workshops and seminars with Industry leads.
- Complimentary participation to programs on “Communication and Interviewing Skills”.
